

## Schedule

March 15, 2012

### Lectures

7:30-8:00 Registration and Coffee

8:00-8:40 Oral examinations. Sedation and equipment requirements for a complete oral examination, dental charting, oral photography and oral endoscopy.

8:40-9:00 Recognition and staging of periodontal disease.

9:00-11:00 Dental radiography. Extra-oral and intra-oral radiography. Equipment options, positioning for dental imaging, interpretation of dental radiographs. Indications for additional imaging modalities. This will include a review of the anatomy and physiology of the equine tooth, and anatomy of the skull with an emphasis on the sinuses.

11:00-12:00 Lunch

12:00-1:30 Intra-oral extraction of equine cheek teeth. Instrumentation and technique for intra-oral extraction of cheek teeth. Regional nerve blocks, standing CRI sedation, post extraction management, complications and follow up.

1:30-3:00 Surgical extraction of mandibular cheek teeth. Deciding what cases should be managed by repulsion or surgical extraction, and management of sinusitis.

3:00-3:15 Break

3:15-4:15 Unilateral nasal discharge. A case based presentation of clinical cases that demonstrate the variety of etiologies that present as unilateral nasal discharge, with a discussion of treatment and complications.

## Schedule

March 16, 2012

### Wet Lab

7:30-8:00 Registration and Coffee

8:00- 12:00 Lab in session

12:00-1:00 Lunch

1:00-4:00 Lab in session

**Dental Wet Lab: Intraoral and extraoral dental radiography and oral extraction of cheek teeth and incisors.**

If you have interesting and challenging cases, please refer them so we can all benefit. Owners should expect a 20% discount. Radiographic interpretations are free. Attendance is limited to 30 and will fill quickly.

### **Dr. Robert Baratt DVM, FAVD**

Dr. Baratt, received his masters (Pathobiology) and DVM from Colorado State University. He established the Salem Valley Equine Clinic in 1983, and expanded to a mixed practice, the Salem Valley Veterinary Clinic, in 1993. Over the past 10 years he has concentrated on veterinary dentistry, earning Fellowship in the Academy of Veterinary Dentistry in 2009 (the first veterinarian to become a fellow in both small animal and equine dentistry). Bob is currently a 3rd year dentistry resident at Cornell University

**Myhre Equine Clinic's mission** is to provide high quality services and unsurpassed care for all horses and owners 24 hours a day, 7 days a week. Our highly educated and experienced staff will work with your veterinarian and farrier to provide the best diagnostics and treatment available. We appreciate serving you and your horse, and we promise to provide superior care and services at affordable prices.

### **About Us**

Built by Dr. James Burns in 1969, the Rochester Equine Clinic provided three and a half decades of quality service to New England horses, owners, trainers, veterinarians and farriers.

Dr. Grant Myhre brings over 40 years of referral experience, the most in New England, to MEC. Arriving in 1978, Dr. Myhre has led the facility, becoming instrumental in the development of the complex. Many others have contributed to the success of the facility over the years and their efforts are appreciated. In 2008 Dr. Ron Vin joined MEC full-time, adding his expertise in internal medicine.

With newly remodeled facilities in 2005, Rochester Equine Clinic evolved into Myhre Equine Clinic continuing the same high quality of care. New state-of-the-art technology takes MEC to the highest level of veterinary diagnostics and care. Myhre Equine Clinic has the most experienced veterinary surgeon, diagnosticians and highly educated caring staff to work with our digital radiography, Computer Assisted Tomography (C.A.T.), Magnetic Resonance Imaging (MRI) and nuclear scintigraphy. With this combination we continually provide your client with the most caring treatment and modern technology available now, and in the future.

Surgical cases are scheduled for Monday's through Friday's from 8 AM to 5 PM

Myhre Equine Clinic is available for emergencies 24 hours a day, 7 days a week.

***We appreciate your referrals. This conference is our means of demonstrating that appreciation.***

## ***Upcoming Events***

### **Ski Joring Clinic & Demonstration**
